

2017 Swedish Championships for Laser Master Sandhamn, Sweden

IMPORTANT INFORMATION

The regatta will be hosted by KSSS (the Organiser) at Sandhamn/Lökholmen which is located in Stockholm's outermost archipelago. It is not possible to reach Sandhamn by car, and regular ferry transportation does not carry laser dinghies and bulky goods. Therefore, the Organiser offers participants special charter ferry transportation against a transportation fee. Please pay close attention to the information below regarding ferry transportation and other logistics.

The race office and boat park during the regatta will be situated at KSSS facilities at Lökholmen. A scheduled shuttle ferry "Baljan" is frequently connecting Sandhamn and Lökholmen free of charge (four minutes ride).

1. Location of ferry departure; Loading

- 1.1 The transportation vessel will depart from Sjösala south of Stavsnäs at Värmdö east of Stockholm, please see [enclosed map and road description](#), and arrive at the regatta site at Lökholmen. The trip takes approx. 75 min at sea.
- 1.2 The transportation vessel will carry lasers on laser trolleys, other laser equipment and sailor's luggage. Luggage will be stored outdoor and you are therefore advised to use bags that can withstand rain and spray.
- 1.3 Loading will start 45 min before the ferry departure. Please make sure to have your laser ready on its trolley with wheels attached and with all other equipment available when loading starts. **The ferry has a tight schedule and so we cannot guarantee transportation in case of late arrival.**
- 1.4 Lasers will be piled in at least two layers so we kindly ask you not to tie masts or other parts to the deck. Please bring any trolley connection parts that may be required for piling.
- 1.5 Participants and guests will travel on separate transportation vessels. Regular transportation to Sandhamn/Lökholmen for passengers leaves from Stavsnäs Vinterhamn, 2,2 km walking distance from Sjösala (or Strandvägen, Stockholm). There is parking available also in Stavsnäs Vinterhamn at normal prices approximately double the price of Sjösala. KSSS will endeavor to assist with transport between Sjösala and Stavsnäs but it is recommended for sailors to help each other with commuting since KSSS must focus on loading the Lasers. More

information and details on the passenger transportation can be found on <https://www.sandhamn.com/> [<https://www.sandhamn.com/resan-till-oss/battider-mot-sandhamn/> <https://www.sandhamn.com/resan-till-oss/battider-fran-sandhamn/>]

2. Ferry schedule

The transportation vessel will depart according to the following time schedule:

<u>Date</u>	<u>Departure Sjösala</u>
Wednesday 9 August	09.00 (participants at the Laser Master Training Clinic will have reserved spots at this departure)
Thursday 10 August	08.00 11.30 15.00 18.30
Sunday 13 August	<u>Return departure Lökholmen</u> 08.00 11.30 15.00 18.30

The Organiser is estimating the number of Lasers to be piled on top of each other on each transport. If we can not pile the estimated number of Lasers on top of each other, some Lasers may be rescheduled to a later transport.

The Organiser reserves the right to reschedule pre-reserved return tickets such that those competitors with longest travel distance receive the earlier departures.

3. How to reserve and pay for ferry transportation

Ferry transportation is reserved at www.ksss.se in connection with the online registration for the regatta (KSSS web shop). Each ferry departure will have a certain maximum capacity. You are therefore advised to reserve a slot as soon as possible.

The fee for transportation of one laser with trolley and relating laser equipment plus luggage for one sailor is 800 SEK for a two way ticket. One-way tickets will only be offered if there is available space, and then at half of the aforementioned fee.

Payment is collected by the Organiser and payment is made to KSSS in connection with your online-reservation (KSSS web shop). A reservation is complete when payment has been made.

The Organiser reserves the right to cancel a departure or change the departure schedule.

The Organiser disclaims all liability for any damage caused to goods during transportation or during loading/un-loading.

4. Car and trailer parking
