

INSTRUCTIONS FOR THE CORRECT USE OF METASAIL TRACKERS BY SAILORS.

1. The trackers are entrusted to you for the duration of the entire championship.
2. We ask you to take care of them. They are your responsibility.
3. We ask you to fix them to the mast, as shown in the attached picture.
4. You must bring them back in the middle of the championship for loading. The race committee will notify you of the location and date by way of a Notice.
5. You must also return them on the last day of the race, according to the procedure set up by the organisers.
6. The trackers work alone. They are switched on and off remotely by the METASAIL team.
- 7. DO NOT TOUCH THE BUTTONS.**
- 8. IF YOU DO, THE TRACKERS LOSE THEIR ON/OFF PROGRAMMING.**

Very good navigation to all and very good "follow-up" in LIVE, for your close relations and for you, and your trainers in REPLAY
